

MD HABIB MUNSAR AHMED

SOFTWARE ENGINEER | AI/ML • Full-Stack Development • Cybersecurity

Bongaigaon, Assam, India | +91 8099321737 | habibmunsarahmed@gmail.com

github.com/habib404ahmed | linkedin.com/in/habib404ahmed

PROFESSIONAL SUMMARY

Software Engineer and BCA student with hands-on experience building full-stack applications, AI-powered systems, multi-agent solutions, and cybersecurity-focused projects. Proficient in Python, Java, JavaScript, React, Node.js, FastAPI, Spring Boot, SQL, modern databases, cloud platforms, and AI technologies. Interested in building intelligent, scalable and secure software systems.

TECHNICAL SKILLS

Programming:	Python, Java, JavaScript, SQL
Frontend:	React, HTML, CSS, Tailwind CSS
Backend:	Node.js, FastAPI, Spring Boot
AI / ML:	Machine Learning, LLMs, RAG, AI Agents
Cybersecurity:	Ethical Hacking, Kali Linux, Network Security
Systems:	Linux Admin, Windows Setup, Hardware Diagnostics, Tuning
Databases:	MySQL, MongoDB, PostgreSQL, Firebase, Supabase
Tools / Cloud:	Git, GitHub, Docker, AWS, Vercel, Render

SOFTWARE ENGINEERING PROJECTS

SENTRA — Passive Unidirectional Cyber Threat Detection SOC

FastAPI, Scapy, PostgreSQL 18, React 19, TypeScript | SIH 2026 Problem ID: 26145

- Engineered passive network monitoring SOC platform for unidirectional IP data diodes with zero return path.
- Streamed PCAP/PCAPNG packet captures with Scapy, extracting 5-tuple directional flow metrics into PostgreSQL.

AI Multi-Agent Task & Schedule Manager

Python, FastAPI, SQLite, Pydantic, Vanilla JS

- Built multi-agent AI system with central Primary Agent router dispatching to Task, Calendar, and Notes agents.
- Implemented decoupled tool layers with Pydantic schema validation and transactional SQLite storage.

5minhelp — Local Service Marketplace

React.js, Node.js, Express, MySQL 8.0, Socket.io, JWT Authentication

- Developed full-stack marketplace connecting local customers with verified service providers in real time.
- Implemented WebSocket event dispatch via Socket.io and multi-role RBAC for Customers, Workers, and Admins.

Campus Care — Real-Time Campus Safety Platform

React, TypeScript, Vite, Tailwind CSS, Geolocation API | Engineering Day Rapid Challenge

- Engineered 1-tap SOS emergency dispatch with non-blocking GPS capture and anti-spam safeguards.
- Implemented 4-tier clinical triage assessment alongside 7-role access control consoles for campus safety.

UniBox League — Box Cricket Tournament Platform

JavaScript, Supabase PostgreSQL, Web Crypto API (SHA-256), Tailwind CSS v4

- Implemented athlete registration with client-side SHA-256 salted password hashing via native Web Crypto API.
- Integrated real-time Supabase PostgreSQL for live coordinator verification and credential clearance management.

EDUCATION

Bachelor of Computer Applications (BCA)

Assam Down Town University | 1st Semester SGPA: 8.05 | 2nd Semester SGPA: 8.10

Class XII: 58% | Class X: 72%

2025 — 2028

CERTIFICATIONS & LEADERSHIP

- Introduction to Modern AI — Cisco Networking Academy (2025)
- Ethical Hacking — Pitronix Solutions, 7 March 2026 (Certificate ID: #00102970)
- Certificate of Appreciation — Organizer, Orientation & Independence Day Programs, Assam Down Town University (Aug 2026)

Languages: English (Professional), Hindi (Fluent), Assamese (Fluent)
